

Make your memories perfect with *Perfect Celebrations*

Local business woman and resident Sharon Turner set up her first business 15 years ago and recently handed over the general running of this business to her son in order that she could start another business built around her passion of photography!

From a young age Sharon was rarely without her camera and her father would refer to her as 'David Bailey'. Six years ago Perfect Celebrations was launched and since then Sharon has been hard at work capturing those memorable moments for her clients.

Sharon understands that the key to stunning images is how relaxed and comfortable her clients' feel. That's why she will take time to get to know you, either for a portrait session or as a wedding photographer.

If you hire Perfect Celebrations for your wedding photography, Sharon will ensure that she understands what you want to capture during the day and work with you to make sure that nothing is left out. She is also happy to give some guidance if you don't have a clear

idea of what you might want and the final result will be a collection of formal and informal pictures of your special day for you to treasure. Sharon

will always be accompanied by another photographer on the big day so she can focus on the formal pictures and her assistant will mingle with the wedding party and guests in order to capture the informal moments of the day.

Sharon also provides a Wedding Planning service in order to remove some of the stress of planning a wedding. Over the years she has built up good contacts with other local suppliers in the wedding industry. In order to add even more value to this particular service Sharon is also in the middle of obtaining a qualification in wedding planning. She will work to your set budget and can deal with all aspects on your behalf from liaising with the venue to sorting out the buttonholes. With so many demands on our time these days, her clients find it a blessing to have someone on hand to help with planning and someone who will not be emotionally involved in the day and try to take over.

Other photography services Sharon offers are:

- Family Portraits
- Event Photography
- Pet Portraits
- Baby Bump
- Baby Portraits
- Couples/Singles Portraits

Portrait shoots can either be carried out in the client's own home, outdoors or Sharon can hire a professional studio in nearby Southborough.
